

Colors of the Wind

LaVousha

I have been diagnosed with schizophrenia, diabetes and mild cerebral palsy. I help with preparing meals, washing clothes, drying and folding, and cleaning around the house. I also inform those around me of outings I enjoy going on or what I would like to do. I like having conversation with others and meeting new people. I would also like to have a boyfriend one day.

I like many different forms of art – painting, sketching and coloring. I enjoy these because the colors never stop. I always love partaking in art.
